Summary

Full Stack Developer specializing in the MERN stack with strong experience in building scalable, high-performance web applications. Skilled in designing RESTful APIs, implementing secure authentication systems, and developing responsive user interfaces with a focus on performance and user experience.

Skills

Languages: JavaScript, HTML, CSS

Frontend: React.js, Next.js, Redux, Tailwind CSS, Material UI

Backend: Node.js, Express.js, REST APIs, JWT, OAuth 2.0, WebSocket

Tools: MongoDB, Supabase, Git, GitHub, Postman, Vercel

Experience

Frontend Developer

Jul 2024 – Present

Fulcrum Designs

- Developed and maintained scalable React.js applications including a real-time HLS-based video surveillance system.
- Integrated REST APIs using Axios and optimized data flow for improved performance and user experience.
- Implemented secure authentication systems using JWT and OAuth 2.0 (Google Sign-In).

Frontend Developer Trainee

Nov 2023 – Jun 2024

Fulcrum Designs

- Built responsive and reusable UI components using React.js and Bootstrap.
- Improved application usability with form validation, loading states, and structured error handling.

Teaching & Competitive Exam Preparation

2019 – 2023

- Focused on developing strong analytical and logical problem-solving abilities.
- Mentored students and assisted in academic preparation, improving communication and leadership skills.

Site Engineer

2018 – 2019

ABPL Pvt. Ltd., Gurgaon

- Supervised construction activities ensuring adherence to quality and safety standards.
- Coordinated with teams and managed on-site execution to ensure timely project completion.

Projects

PulseForge (Fitness Application)

In Progress

- Developing a full-stack MERN application for calorie tracking, workout planning, and progress monitoring.
- Implementing user authentication, personalized fitness recommendations, and data-driven insights.

VidPress (Video Streaming Platform)

- Built a real-time multi-camera streaming platform using React.js, Node.js, HLS, and WebSocket.
- Enabled live video streaming with real-time notifications and efficient data handling.

Road Trip Planner

Live

- Developed a MERN stack application for multi-stop route planning with Google Maps API integration.
- Implemented dynamic route optimization and interactive map-based UI.

Golf Charity Platform

Live

- Built a full-stack platform using Next.js, Supabase, and Stripe for subscription-based donations.
- Implemented secure payment integration and prize distribution logic.

Hobbies

Fitness Playing Guitar Travelling

Education

B.Tech Civil Engineering

2013 – 2017

Buddha Institute of Technology, Gorakhpur

Certifications

- Full Stack Development – PW Skills
- UX Research & Design Simulation – Forage
- Generative AI – Physics Wallah
